which is a wonderful improvement in

PRING-TOOTH

Teeth quickly adjusted by only loosening one nut. The best

TOOTH HOLDER

HARROWS.

Ever Invented. The tooth is held in position by a Ratchet, with which it can be aliested so as to wear from 15 to 18 inches off the point of the tooth, which is four or five times as much wear or service as can be obtained from any Spring-tooth harrow in existence.
